## News & Notes

### Celebrating Jack Richter

After 32 years of leadership and service, we're celebrating our former President and Chief Executive Officer as he enters the next phase of life:

### RETIREMENT!

Congratulations to Jack Richter!

Jack started with Winona National and Savings Bank in 1990 as Senior Vice President. In 1998, he became President and CEO, a position he held for 23 years. Most recently, Jack served as the President of WNB Holding Company.

Jack has been a tremendous leader of not only the Bank, but in the Winona community as well. He served in leadership positions on a number of non-profit boards and committees, all while providing 32 years of exceptional service to our customers.

Jack's official last day with WNB Financial is April 9, which is the same date he started working for the Bank 32 years ago.

## *Keeping it in Perspective*

**Prepared by Andrew Kieffer, Vice President, Financial Advisor**

---

It's easy to get excited reading the news. With all of the storm and stress of the last few years, it's only natural to react to each ping of our phone's news apps with a deep sigh and a cynical "what now?"

The truth is, there's always good news and bad news if you dig deep enough into the paper. For every international crisis, there's a medical breakthrough. Each victory has a counteracting problem when you step back and take a look at the big picture. Does this mean that we should just shut off the news and let things happen? No, it's good to stay informed. Keeping all of that information in perspective, though, can be difficult. If you aren't careful, it can lead to emotional or rash decision-making.

Your financial strategy, for instance, has been developed with the "big picture" in mind. Many things can happen in that time, and our strategy gives room for those events to rise, take place, and then fall into the rearview.

Keeping it all in perspective can be tough at times, but this is one of the many reasons you aren't going it alone. When times seem turbulent, it's good to have someone to reach out to who can help you keep that big picture in mind. Give me a call if you're feeling that turbulence; I'd be happy to check in with you and help you keep your focus.

## *You Don't Need a Trust to Work with the Trust Department*

When you hear the words “Trust Department,” the natural tendency is to think about trusts and assume that WNB Financial only works with different types of trusts. It’s not a bad thought, as we do work with various types of trusts, but WNB’s Trust Department does so much more.

The Trust Department is called such because WNB was granted trust powers by the Federal Reserve, which allows us to act “as trustee, executor, administrator... or in any other fiduciary capacity.” The “other fiduciary capacity” part of those powers means we can provide investment management services for individuals. Not only can we provide these services, but we provide them as a fiduciary, which means we’re obligated and committed to acting in your best interest at all times.

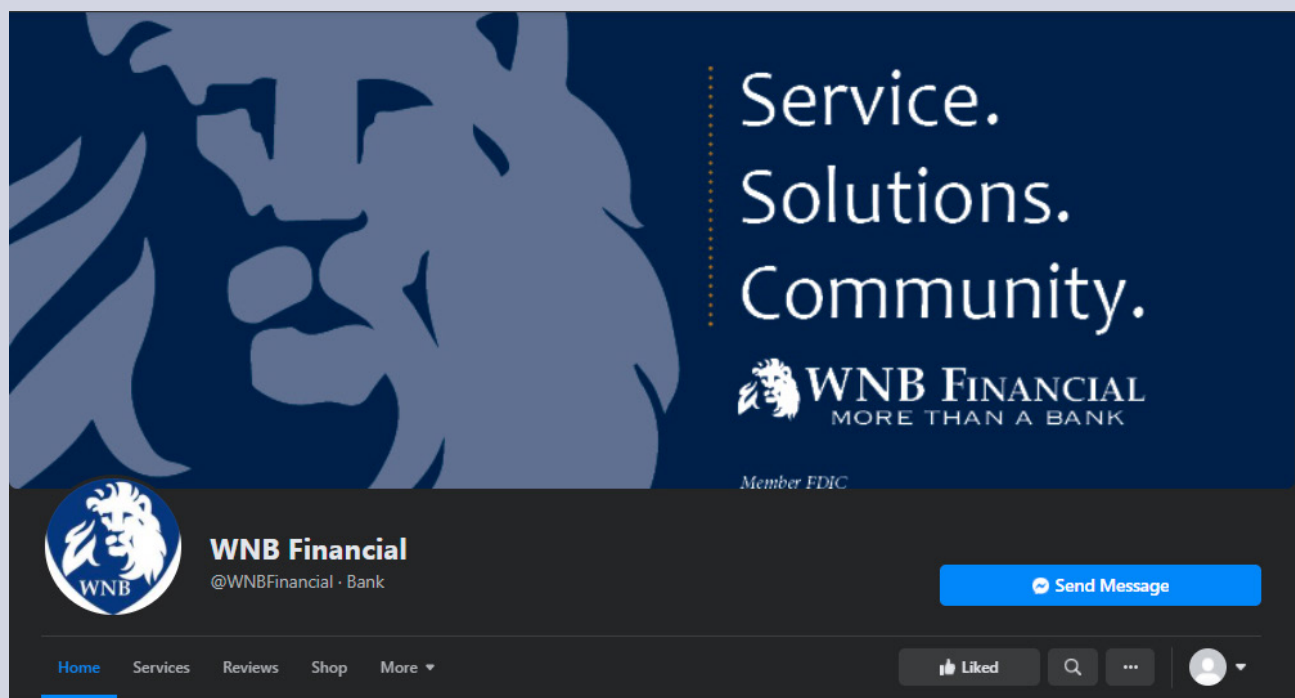

WNB Financial offers a wide variety of individual investment management services, providing you peace of mind about your financial life. We can manage the investments in your IRAs and your brokerage accounts. Our Trust Department is independent of any other investment company, which means your investment selections are not limited to any particular funds or products. Our fees are transparent and are discussed up front, with no commissions collected on your investments. In other words, when we use a particular investment in your portfolio, it’s because we think it’s a good investment and not because we’re getting a big commission from the sale of that investment.

In addition to investment management, WNB can also assist you with financial planning and estate planning. Financial planning can help you get a grasp of your overall financial health. It can also identify areas where you’re doing well and areas where you might not be doing so well in establishing and achieving financial goals. Estate planning is the process of deciding what will happen to your assets if you’re incapacitated or after you have passed away. Many times, we use a team approach and work with you, your attorney, and maybe even your accountant to assist in the estate planning process.

As you can see, WNB’s Trust Department does so much more than trusts, and you don’t need a trust to work with the Trust Department. If you have any questions or would like to discuss the services offered by the Trust Department, please feel free to reach out to me at 507-454-9238 or any of our Trust Officers at 507-454-4320.
